

ATLANTIC SELF LOADING CONCRETE MIXERS

ASLD SERIES

The Atlantic Self Loading Concrete Mixers is a well-designed and user-friendly diesel-driven Concrete Mixer. It is simple to operate, easy to service, and offers high productivity. Equipped with a self-loading system, the machine is ideal for mixing and conveying concrete at the site.

The diesel-hydraulic models come with a powerful Kirloskar diesel engine with drum sizes ranging from 1 to 4.5 cubic meters of drum capacity. Equipped with 4-wheel drive to tackle the on-site difficult terrain, contributing to better grip on slippery & harsh terrains.

The Atlantic Self Loading Concrete Mixers come with a load cell weighing system that weighs the concrete before mixing for an accurate mixing ratio.

The Concrete Batch Controller helps to store up to 5000 batches of multiple mixing recipes, including the auto water/ additive cut-off system.
