

Mix and pump concrete materials for underground mine seals, grouting, and underground shotcrete !

Can be used for:

- 3/8" Aggregate Shotcrete
- 3/8" Aggregate Concrete Mixes
- Pressure Grouting
- Mine Seals

Blastcrete Pumps are the most economical, versatile, simple, and safe concrete pumps ever built !

Low profile mixing and pumping for any underground application

High shear two stage mixing system

Optional PA approved electrical and fire suppression available

Features

- 3" X 24" Ultra High Pressure Swing Tube Piston Pump
- High Shear Two Stage Mixing System
- Can Pump Materials in Excess of 500 ft.
- Hydraulic Receiving Hopper Agitator

Options

- Pendant or Wireless Remote
- Hydraulic Pressure Washer
- PA Approved Electrical
- Manual Fire Suppression
- Automatic Fire Suppression System

Screw Conveyor to Charge Continuous Mixer-Operates within 6 ft. Ceiling

Specifications

Pump	3" X 24" Swing Tube
Pumping Pressure	2200 PSI
Output	0-12 cu. YPH
Discharge	3" HD
Hopper	3 cu. ft.
Dimensions	120" x 54" x 48"
Weight	4000 lbs.

MineMate

Power Options

40 HP Electric Motor with Starter and Disconnect
Kubota V3600 66 HP Kubota Water Cooled Diesel
